To OUR STOCKHOLDERS:

Financial report showing the results of the International Shoe Company's operation for the fiscal year ended November 30th, 1935, is submitted herewith.

Net sales to customers were \$83,073,459.99 compared with \$77,168,682.26 last year. Our factories produced 43,042,230 pairs of shoes, against 44,804,507 last year.

Subsidiary plants (sole leather and upper leather tanneries, textile mill, factories making all leather counters, heels and soles, rubber heels and soles, welting, box toes, cartons, containers, chemicals, cements, etc.), produced during 1935 shoe materials and shoe supplies amounting to \$35,084,035.11 which, combined with our sales, made an aggregate of \$118,157,495.10 business transacted.

Net earnings, after taxes, for the year were \$8,541,962.26 which represents an earning of \$2.55 a share on the Common Stock. This compares with \$8,967,024.44 or \$2.67 a share last year.

The Company's current assets of \$57,450,185.56 are thirteen times its current liabilities of \$4,336,925.76, which include a reserve for income taxes of \$1,800,000.00.

While the production in pairs this year shows a decrease of approximately 4% from last year, the Company actually sold and shipped to customers 10% more pairs of shoes this year than last. This accounts for the decrease in inventory of manufactured merchandise during 1935 as against a substantial increase in the same item the previous year.

Under normal conditions increased volume of approximately \$6,000,000.00 in sales would result in substantially increased earnings; but the desire to keep our prices within the reach of the average purse caused us to absorb the major part of increasing costs and sell our product on a closer margin of profit. This was done advisedly in the belief that such a course makes for good-will and strengthens the foundation of permanent success.

We begin the New Year with a well balanced stock of merchandise, a strong financial set-up and with an organization that is working with generous zeal and loyalty. These are the factors that point to another successful year for your Company.

Frank C. Rand. M. H. Maulton.

Respectfully submitted,

INTERNATIONAL SHOE COMPANY.

Chairman of the Board

President.

INTERNATIONAL SHOE COMPANY, St. Louis, Missouri.

We have made an examination of the Consolidated Balance Sheet of the International Shoe Company and Subsidiary Companies as at November 30, 1935 and of the Consolidated Income and Surplus Accounts for the year ended on that date. In connection therewith, we examined or tested accounting records of the Companies and other supporting evidence and obtained information and explanations from officers and employees of the Companies; we also made a general review of the accounting methods and of the operating and income accounts for the year, but we did not make a detailed audit of the transactions.

In our opinion, based upon such examination, the accompanying Consolidated Balance Sheet and related Consolidated Income and Surplus Accounts fairly present, in accordance with accepted principles of accounting consistently maintained by the Companies during the year under review, their consolidated position at November 30, 1935 and the results of their operations for the year.

St. Louis, Missouri, December 24, 1935. PEAT, MARWICK MITCHELL & Co.
